The video for this gorgeous, heartfelt, reimagined instrumental was filmed in the back of Emmanuel's tour bus outside the Tennessee Theatre in Knoxville last March.

This Friday, January 15, Chet Atkins-certified acoustic master Tommy Emmanuel will release a new EP, *Imagine*.

Featuring his dazzling interpretation of the timeless titular John Lennon tune and re-recordings of two original pieces from his 1999 album, *Only* – "Since We Met" and "I've Always Thought Of You" – the digital-only EP will be released via Emmanuel's label, CGP Sounds.

Above, you can check out our exclusive premiere of the performance video for "I've Always Thought Of You."

Filmed in the back of Emmanuel's tour bus outside the Tennessee Theatre in Knoxville, TN in March – just before the coronavirus shutdown – the intimate video is the perfect vehicle for the tune, a beautifully heartwarming piece Emmanuel wrote for his daughter, Amanda.

Signature Maton acoustic in hand, Emmanuel is in immaculate form as always, perfectly blending his virtuosic technical skill with a profound sense of melody. It's a treat to watch.
